EXPERIENCE

❖ **Software Engineer, SITSOL** . . . .   Oct 2020 – Present
San Francisco, CA

As a Software Engineer at SITSOL, I am working on a small agile team in a startup environment on
Project-based tasks that may include web applications or mobile applications. My daily responsibilities include:

- Utilizing the ASP CORE stack to maintain our backend API
- Third-Party API Integrations
- Pushing and managing branches at GitHub or azure team foundation.
- Ticket based tasks using JIRA
- Deployment of projects at google or azure windows server and VPS and maintaining IIS.
- Deployment of mobile applications at Google and Apple store respectively.

❖ **Associate Software Developer, Naeem Impex** . . . . May 2019 – Nov 2020
Karachi, Pakistan

Naeem Impex LTD is a Textile clothing manufacturing company. As a SoftwareDeveloper, I work on their
ERP Software structure built using ASP.NET CORE MVC in an agile environment. My daily responsibilities include:

- Working with stakeholders to gather functional and technical requirements
- Creating wireframes to test our ideas
- Utilizing manual methods to test our code
- Documentation of code.

❖ **Trainee – Associate Developer, Mintbrains** . . . . Dec 2018 – Oct 2019
Karachi, Pakistan

At Mintbrains, I participated in an internship program, during which I rotated between their Front end, deployment, and software engineering departments, and got a position for the Associate developer after 3 months. My daily activities included:

- Shadowing senior team members to get a feel for their day-to-day responsibilities
- Taking on small software development projects then presenting my work to the leadership team
  Assisting with process improvements, making suggestions on workflow changes where needed
