Sameer Ul Haq

Software Engineer at Naeem Impex

Pakistan

Summary

I'm passionate about my career to work for renowned organizations, and to make myself Asset for Organization.

Having Well-developed IT skills including Dot Net Framework (Web Applications and Web API) N-Tier Application, AJAX, JQuery and Deployment On Cloud (Microsoft Azure App Service and SQL Server), with Core Programming concepts OOP and Data Structures and Problem Solving Abilities. Had Worked On Many Live Project Updates while Working for Software houses, Also Developed an ERP for Textile Industry Single Handedly and its Deployment at Microsoft Azure.

Aim is to learn new technologies rather than sticking with one, Intrested in hybrid mobile application development if i get a chance working with it.
